

Volunteer work placement

All Exchangees in Nigeria are put to volunteer work placements. 90% of work placements deal with children between the ages of three to ten years. We have, for now, very limited number of work placements and so, it will not be in our interest if the Exchangee start changing their place, whenever they feel like unless there is a genuine reason.

Recently, establishments employing Exchangees are becoming reluctant and this is because some Exchangees do not take their work devotedly as they should. We appeal to Exchangees to please put in their best wherever they are placed, and make sure that they work the number of hours expected to them every day (not more than 8 hours each day, it could be less).

Our committee will try to see that Exchangees are allocated to the work placements specified in their form, if possible, let us also say that our work placement outside Lagos is limited.

List of available work placements
