

Dear Exchangee:

On the following pages you will see a brief introduction of some projects which will be most probably offered in the exchange year **2018-2019**. Please read it carefully and fill in the priority list at the final page. Please note that we can not guarantee you will be placed in the project of your choice, but we will try our best to match you with a similar project.

Moreover there are some points you shall be aware of:

- We hope you could be more open-minded and free all the stereotypes you might have.
- Due to the resident permission in Taiwan, please note that you shall stay at the same project for the whole year. Only in certain serious cases it may be necessary to change project.
- Please understand that basically we cannot full fill your wish to be placed in a certain region or city. (for example :Taipei or other big cities)
- You are here as a volunteer, not as an ambassador. Therefore we can only provide you three camps during your exchange year. We can't offer you to the universities or attend language centre during the year.
- Please be prepared that your work might also include cleaning (both for male and female).
- As we have some projects in which the exchangees are working and living at the same places. Therefore, you(especially older or male exchangee) shall be prepared that you maybe live in the projects.
- Please be aware of that you are like a member of staff at your project, not just like a "visitor". You have your own responsibility and can only take time off when the project agrees you to do so. This can sometimes be very difficult as it limits the amount of freedom you have.

Finally, please kindly send back your preference list **before April 15th, 2018**. Please feel free to contact us if you have any further questions.

Looking forward to seeing you soon!
